WARNING

The Jelly-Grip Tripod Mount is designed to support smartphones and similar flat and thin devices having a weight of not more than 8 ounces. It is not designed for, and it may not support devices with extended or extendable lenses or similar projections. An infinite number of configurations may be used to secure any particular device, and the manufacturer cannot be responsible for the method

you select. In all instances the user will be solely responsible for determining that a particular device is secure and well balanced in the Jelly-Grip Tripod Mount, and that the Jelly-Grip Tripod Mount is properly affixed to the Jelly Long Legs tripod or similar, secure base, because damage to the smartphone or similar device should be expected if an improper configuration is used.

USE COMMON SENSE

- Do not carry the tripod with your smartphone installed. First remove your smartphone before moving the tripod.
- This product is designed to hold a smartphone steady on a tripod while taking a picture. It is not designed to be mounted to a moving object or vehicle.
- This product contains small parts that may be a choking hazard. Keep out of reach of children.

LIMITED WARRANTY

This Jelly-Grip Tripod Mount is warranted against defects in materials and workmanship for a period of one (1) year from the date of the original retail purchase. If a defect exists, Square Jellyfish will, at its option and to the extent permitted by law, (1) repair the product at no charge using new or refurbished parts; or (2) exchange the product with a functionally equivalent product that is new or refurbished; or (3) refund the original purchase price.

This warranty excludes damage resulting from abuse, accident, modifications, or other causes that are not defects in the materials or workmanship. To the extent permitted by applicable law, the manufacturer is not liable for any direct, indirect, incidental, or consequential damage arising out of the use or service of the product, including, but not limited to damage which may

be caused to any smartphone, electronic device, or other device utilized in conjunction with the Jelly-Grip Tripod Mount. To the extent permitted by applicable law the manufacturer of the Jelly-Grip Tripod Mount disclaims all implied and statutory warranties, including warranties of merchantability and fitness for a particular purpose. If implied warranties cannot be disclaimed, then such warranties are limited in duration to the duration of this warranty. This warranty gives you specific legal rights, and you may have other rights which vary from state to state.

To obtain warranty service contact Square Jellyfish using the information provided at www.squarejellyfish.com.

To the extent permitted by applicable law Jelly-Grip Tripod Mount will require proof of purchase for all warranty repairs or replacement.

Securely supports smartphones in multitude of angles

3 Mounting Arm:

Balances smartphone directly over tripod for remarkable balance

4 ¼ x 20 Threaded Mount:

One-point attachment for any standard tripod

Jelly Long Legs Tripod and iPhone sold separately

SET UP YOUR PERSONAL TRIPOD

- The Jelly-Grip Tripod Mount easily attaches to any tripod with a ¼ x 20 threaded mount. Simply screw the mount onto your tripod making certain the tripod is on a level surface and completely stable.

ATTACH YOUR SMARTPHONE

- Jelly-Grip Tripod Mount is designed to hold a smartphone up to 6" in diagonal.
- Flip each of the Jelly-Grip Spring Mount Claws open forming 90 degree angles with the rest of the claw assembly.
- Gently pull the claws in opposite directions until your smartphone easily slides into place. Release claws. Tension will hold your smartphone securely in the mount.

POSITION YOUR SMARTPHONE

- Rotate your smartphone into any number of positions via the Ball Joint. The joint is designed to securely hold the smartphone in any position it is placed.
- The Ball Joint has an adjustable knob allowing you the flexibility to adjust the tension, if desired.

YOU'RE READY TO TAKE A PICTURE

With this simple two-step set-up you can be ready to take photos or use FaceTime in a matter of seconds:

1. Mount smartphone

2. Position smartphone

There's no need to miss out on a great photo opportunity ever again.
